CHEERS!

On October 4th, 2023, a workshop will focus on game design. The second part of this workshop will involve gameplay. There are three games to put you in PLAY-MODE: The Yatch Game, The Surrealism Game, and The MONSTER Game.

Once you have the energy and motivation to begin designing your Game, we follow these steps:

1. You create a multinational Game Team
2. Define the Hero/protagonist/antagonist profile and their goals/wishes
3. Develop the Plot and Conflict using LOGLINE
4. Determine the challenges that the Hero must overcome
5. Establish the call for adventure or catalyst
6. Identify the achievable rewards.

Stay Fearless
